

TextMyGov Announcement

The City of Leoti is pleased to announce the launch of **TextMyGov**, a new smart text messaging service that will provide Leoti residents information and updates. The new texting service serves two functions, with two separate numbers. Sign up to receive important notifications and text us to find quick information on the go.

The City of Leoti has officially launched the new text notification system to the public. Residents can choose to opt-in to receive these notifications by texting “**LEOTI**” to the number **91896**. After sending an initial keyword, users will be asked to reply to the confirmation with a “**YES**” to opt-in for notifications. Residents may receive text message notifications on things such as **water leaks, trash route schedules, service interruptions, road construction, city projects, events, and other important information.**

Residents may also find quick information 24/7 by texting one to two keywords to our new texting system. You can get quick city related information such as **New Utility Service, Sewer Backup, Dog at Large, Permits, Bill Pay,** and more.

To get started, text “**Hi**” to the number **620-874-9321**.

The City of Leoti is excited for this new technology to keep Leoti residents informed. Other governmental entities across the country are utilizing this system with great success. Stay informed, stay ahead.

Thank you to the Leoti Governing Body for their approval of funding this notification system and for their support of this great opportunity to stay connected with our citizens of Wichita County.

Sincerely,

City of Leoti
